

Hana Wireless Launches Redesigned and Improved Website

Monday, May 4, 2020

Boca Raton, Florida – Hana Wireless, Inc., a manufacturer of quality components for both indoor and outdoor wired and wireless broadband solutions, announced today the unveiling of their redesigned and improved website tailored to enhance the user experience.

The redesigned Hana Wireless website offers a new customer experience with enhanced menu categories giving the user the ability to easily find the right products for their application. Additional features include a Site Search page to aide in searching for information, a New Products page to highlight the introduction of new products, a News page to better communicate with visitors and customers and an antenna and enclosure menu configurator option allowing the user to dial-in on the right product selection.

WIRELESS THAT WORKS

Hana Wireless provides quality components for both indoor and outdoor wired and wireless broadband solutions. Product categories include antennas, enclosures, unique custom kits, mounts, adapters, power supplies and pre-made jumper cables. Hana Wireless is dedicated to having the right choice of parts that can make a real difference in the outcome of your wireless broadband communications project. Products are designed to meet the standards comparable to those of other major manufacturers and used across the globe.

“Hana Wireless is excited to share the news of the launch of our redesigned website in hopes of providing visitors and customers alike with enhanced functionality and delivering an improved overall digital experience”, says CTO Patrick Pesa. Visit Hana Wireless’ redesigned website today by [clicking here](#).

All of the Hana Wireless products are available and in-stock and can be ordered directly from Hana’s authorized distributors for immediate shipment.
